## SUMMARY

Front-End Developer specializing in the JavaScript/TypeScript ecosystem, with a strong focus on the MERN stack (MongoDB, Express, React, Node.js). Passionate about building clean, efficient, and scalable web applications with an emphasis on performance, maintainability, and user experience. Collaborative team player who thrives on solving complex problems and delivering impactful solutions.

## TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Node.js, Express, Meteor.js

Databases: MongoDB

Tools & Platforms: Git, REST APIs, JIRA, Agile/Scrum

## EXPERIENCE

Front-End Developer — Extend Platform

Tranztec Solutions, Perrysburg, OH | 2022 – Present

- Develop, optimize, and maintain front-end features for a large-scale transportation management system.
- Build reusable React components and streamline UI logic across multiple complex views.
- Collaborate with backend engineers to integrate RESTful APIs and improve data flow.
- Enhance user experience through responsive layouts, modern UI design, and accessibility improvements.
- Diagnose and resolve production issues promptly through debugging and testing.

## KEY PROJECTS & HIGHLIGHTS

- Delivered major performance and accessibility improvements.
- Created a reusable UI library adopted across company apps.
- Led consolidation of multiple repositories into a unified monorepo.
- Consistently resolved the highest volume of JIRA issues company-wide.
